A S much disease prevails in our midst for which men of sclence and deepest research have ever failed to give relief, nay more, have ever pronounced out of the power of medicine or skill; and as seen here, certified and referred to by our neighbors of undoubted veracity, cures are made in our city, and open to the inspection of ah, in the different varieties of the worst disease, pleasantly and speedily made by the use of Hampton's Tincture and Oninnent. Wound it not be well, or, I would ask, is it not the duty of the accorable Mayor and City Council to investigate this matter? If it be fase, it amould be silenced by them; if rite found true, left go to an afflicted worll with merited honor, and that blaze of glory won by its cures new to an medicine, and besonging alone to itse f. Does not suffering numers nature cry aloud to relief? Where are the friends to the comforts of heelth? Where is the philadrinopus? Can they stand it? Further: at the powers smoot tness facts, should they not come forth, and with a voice of thunder proclaim to the difficted with joy, in this pleasant futer, in this healer of the stomach, is found a sovereign palm, a radical cure for all disease? If this be true, it would seem to me worthy of all praise; if it he faise, let the poor wretch the intereable moneter, who would thus dare triffe with the mained, the nail, a diffe bind, be held up to poblic gaze with scom and content is which would add a last and find statu to fine darkest crime that ever disgraced a State's prison.
